

## **ARMATURE and CLOUDSOFT Solutions Announce Partnership to Bring Industry-Leading Accreditation Software to Canadian Health and Social Services Community**

*Solution enables health organizations to save significant time and resources on accreditation activities*

DULLES, VA - [ARMATURE Solutions Corporation](#), the world's leading provider of accreditation and certification management software, and CLOUDSOFT Solutions, an innovative Canadian cloud solutions provider with a heritage of service excellence, today announced a partnership that will reshape how health and social services organizations conduct their accreditation activities.

ARMATURE Fabric™, developed by ARMATURE and distributed by CLOUDSOFT, is an accreditation management software solution that improves the performance of the accreditation process by bringing all associated activities and documents together via a single platform. It allows health and social services organizations to conduct all their accreditation activities through a user-friendly interface.

The solution, which is delivered in French and English, will help health care organizations to reduce the time and resources used in the accreditation process by up to 50%. It provides a single place for organizations to conduct all their accreditation activities, empowering staff to manage data and documents easily, locate historical information, and minimize the risk of data loss or misplacement.

“We’ve found in ARMATURE, and in their flagship product ARMATURE Fabric, the perfect accreditation and certification solution for our Canadian clients across all 13 provinces and territories,” stated CLOUDSOFT President and CEO Robert Innes. “The company brings twenty years of experience and a holistic, mature cloud product, while maintaining an innovative edge.”

“We are excited to extend the benefits of ARMATURE Fabric to the Canadian health and social services sector, through our trusted partner, CLOUDSOFT,” said ARMATURE CEO David McTaggart. “By saving these organizations significant time and effort and helping them meet their digital transformation goals, we are confident can contribute to the broader mission of improving patient care. That’s a big win for all of us.”

### **About ARMATURE Solutions Corporation**

For the last two decades, [ARMATURE](#) has applied its passion for technology and innovation to help organizations automate the way they manage risk, performance, and compliance. Our software platform has evolved over the years because of the influence of our accreditation, certification, and audit management customers, many of whom have complex data collection, process management, issue management, and reporting requirements. We remain ready to serve those organizations who want to take the next step in optimizing performance, building resilience, managing compliance, and mitigating risk.
